

STATE OF CALIFORNIA
THE RESOURCES AGENCY
STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS

ORDER

APPLICATION 6441

PERMIT 3441

LICENSE 1288

**ORDER GRANTING REINSTATEMENT OF
REVOKED LICENSE 1288**

WHEREAS:

1. The State of California-Department of Transportation, informed this Board on May 16, 1978, that it had abandoned the project covered by License 1288 and requested that the license be revoked. License 1288 was accordingly revoked on October 27, 1978, and a copy of the order was recorded with the County Recorder of Del Norte County at book 225, page 42, of the official records.
2. On March 23, 1979, the Forest Supervisor of Six Rivers National Forest informed the Board that the Forest Service had acquired the right covered by License 1288 when they purchased the place of use and that they had continued the use of water to the present. The Forest Supervisor requested that License 1288 be accordingly reinstated and assigned to U. S.-Six Rivers National Forest.
3. The Department of Transportation was in error in requesting revocation since it no longer owned the property in question, having sold the property to the U. S.-Six Rivers National Forest in 1975.

NOW, THEREFORE, IT IS ORDERED THAT:

1. License 1288, issued pursuant to Permit 3441 and Application 6441, is hereby reinstated and in full force and effect.
2. That ownership of License 1288 be shown upon Board records as having been acquired by U. S.-Six Rivers National Forest.

Dated: JULY 13 1979

Michael A. Campos, Chief
Division of Water Rights

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
DIVISION OF WATER RESOURCES

License for Diversion and Use of Water

LICENSE 1333

PERMIT 3441

APPLICATION 6441

THIS IS TO CERTIFY, That State of California, Department of Public Works,
DIVISION OF HIGHWAYS, Sacramento, California

has made proof to the satisfaction of the Division
of Water Resources of California of a right to the use of the waters of an unnamed creek flowing from a
spring in Del Norte County

tributary of Smith River

for the purpose of domestic use

under Permit 3441 of the Division of Water Resources and that said right to the use of said waters has
been perfected in accordance with the laws of California, the rules and regulations of the Division of Water Resources
and the terms of the said permit; that the priority of the right herein confirmed dates from September 20, 1929;

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited
to the amount actually beneficially used for said purposes and shall not exceed five thousand (5000) gallons
per day from January 1st to December 31st of each season.

The point of diversion of such water is located South seventy two degrees no minutes West
(S. 72° 00' W) three hundred seventy (370) feet from the northeast corner of
Section 20, T 17 N, R 2 E, H.B. & M., being within the NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of said Section
20.

A description of the lands or the place where such water is put to beneficial use is as follows:

Domestic use at State Highway maintenance yard at Gasquet, being within
the SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 20 and the SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 21, T 17 N, R 2 E,
H.B. & M.

The right to the diversion and use of the water aforesaid hereby confirmed is restricted to the point of
diversion herein specified and to the lands or place of use herein described.

This license is granted and said appropriator takes all rights herein mentioned subject to the terms and conditions set forth in Section 20 of Chapter 586, Statutes 1913, which is as follows:

Sec. 20. All permits and licenses for the appropriation of water shall be under the terms and conditions of this act, and shall be effective for such time as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purpose for which said water was appropriated, but no longer; and every such permit or license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this section and likewise the statement that any appropriator of water, to whom said permit or license may be issued, shall take the same subject to such conditions as therein expressed; provided, that if, at any time after the expiration of twenty years after the granting of a license, the state, or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the water and property occupied and used under said license and the works built or constructed for the enjoyment of the rights granted under said license, and in the event that the said state, city, city and county, municipal water district, irrigation district, lighting district or political subdivision of the state so desiring to purchase and the said owner of said works and property can not agree upon said purchase price, said price shall be determined in such manner as is now or may hereafter be determined in eminent domain proceedings. If it shall appear to the state water commission at any time after a permit or license is issued as by this act provided that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has failed to observe any of the terms and conditions in the permit or license as issued, then and in that case the said commission, after due notice to the permittee, licensee, or the heirs, successors or assigns of such permittee or licensee, may revoke said permit or license, and declare the water to be unappropriated and open to further appropriation in accordance with the terms of this act. And the findings and declaration of said commission shall be deemed to be prima facie correct until modified or set aside by a court of competent jurisdiction; provided, that any action brought so to modify or set aside such finding or declaration must be commenced within thirty days after the service of notice of said revocation on said permittee or licensee, his heirs, successors or assigns. And every licensee or permittee under the provisions of this act if he accepts such permit or license shall accept the same under the conditions precedent that are value whatsoever in excess of the actual amount paid to the state therefor shall at any time be assigned to or claimed for any permit or license granted or issued under the provisions of this act, or for any rights granted or acquired under the provisions of this act, in respect to the regulations by any competent public authority of the services or the price of the services to be rendered by any permittee or licensee, his heirs, successors or assigns or by the holder of any rights granted or acquired under the provisions of this act, or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the state or any city, city and county, municipal water district, irrigation district, lighting district or any political subdivision of the state, of the rights and property of any permittee or licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this act. The application for a permit by municipalities for the use of water for said municipalities or the inhabitants thereof for domestic purposes shall be considered first in right, irrespective of whether they are first in time; provided, however, that such application for a permit or the granting thereafter of permission to any municipality to appropriate waters, shall not authorize the appropriation of any water for other than municipal purposes; and providing, further, that where permission to appropriate is granted by the state water commission to any municipality for any quantity of water in excess of the existing municipal needs therefor, that pending the application of the entire appropriation permitted, the state water commission shall have the power to issue permits for the temporary appropriation of the excess of such permitted appropriation over and above the quantity being applied from time to time by such municipality; and providing, further, that in lieu of the granting of such temporary permits for appropriation, the state water commission may authorize such municipality to become as to such surplus a public utility, subject to the jurisdiction and control of the railroad commission of the State of California for such period or periods from and after the date of the issuance of such permission to appropriate, as may be allowed for the application to municipal uses of the entire appropriation permitted; and provided, further, that when such municipality shall desire to use the additional waters granted in its said application it may do so upon making just compensation for the facilities for taking, conveying and storing such additional water rendered valueless for said purposes, to the person, firm or corporation which constructed said facilities for the temporary use of said excess waters, and which compensation, if not agreed upon between the municipality and said person, firm or corporation, may be determined in the manner provided by law for determining the value of property taken by and through eminent domain proceedings.
